

OBJECTIVE

A Computer Science student actively seeking an On-the-Job Training (OJT) position to transition from classroom theories to practical, real-world industry applications. While I am continuously working to develop and refine my core programming and design skills, I pride myself on being highly trainable, and receptive to constructive feedback. I am eager to put in the necessary hard work to support the daily operations of a professional environment. My goal is to collaborate with experienced team members, absorb industry best practices, and contribute a positive, dedicated work ethic to the organization while building a solid foundation for my future career.

EDUCATION

North Eastern Mindanao State University (NEMSU) | 2023 – Present

BS in Computer Science

Rosario, Tandag City, SDS

ACADEMIC PROJECTS & WORK EXPERIENCE

Freelance Web Developer & Designer *Side Job / Freelance*

- Designed and built simple, responsive websites for clients utilizing foundational HTML and CSS.
- Developed and customized websites using WordPress, managing themes, layouts, and content updates to meet client needs.

UI/UX Prototyping | *Hotel Management System Academic / Personal Project*

- Designed a comprehensive user interface prototype for a hotel management system utilizing Canva.
- Mapped out the visual layout, screen navigation, and user flow to simulate how the final system would operate for end-users.

Freelance Graphic Designer *Freelance / Personal Projects*

- Created simple graphics, posters, and project layouts using Canva and Adobe Photoshop.
- Picked out fonts, colors, and basic layouts to make school and client projects look neat and presentable.
